Melbourne VIC 3004

To Ashleigh Rush,

RE: Testimonial for TenderSearch

WISE Employment Ltd (WISE) is a not-for-profit organisation delivering services on behalf of Commonwealth and State Governments. WISE's Tender and Grants Team comprise of the Tender & Grants Manager, Research and Development manager, Tender & Grants Officer and project officer reporting to the General Manager (Strategy & Alliance).

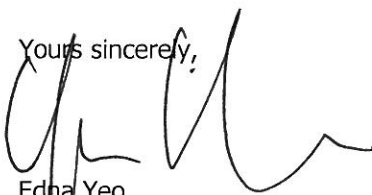

WISE has subscribed to Tendersearch services for the last 6 years and gradually increased Tendersearch functions as the organisation grew from offices in one state to now having offices in NSW and Tasmania.

In the last year, we were persuaded by other tender notification providers to sign on with their service and trial it in conjunction with Tendersearch. After a period of time, we found that we were not able to get the same kind of service that Tendersearch has provided such as separate emails for each state, easy to read and user friendly format of the emails.

As a growing national organisation it is very difficult to keep track of tenders in all the states and we have been very happy with Tendersearch, providing separate emails for each state which has made identification and communication of tenders to the various teams much easier.

The WISE tender team is proud of its tender win rate of 68% in the last 3 financial year, the latest being the WISE's Occupational Rehabilitation Team tender where WISE was selected on a Panel of Health Providers for services in Australia for a Federal Department.

Yours sincerely,

Edna Yeo
Tenders and Grants Business Development Manager
