

MARRIOTT SUPPORT SERVICES

January 15h 2009

To Whom It May Concern:

We have been subscribing to Tender Search for many years now and have always been satisfied with their communications in all areas of our commercial interests.

They have checked with us on a regular basis to see if their search categories still reflect our commercial interests and asked us if there is any other servicer that they can offer to us.

Over the time we have been with Tender Search we have subscribed to other tender notification services. We found the layouts of their services were not as clear and easy to read and the procedure to upgrade, their tender requirements are not clear.

We have won two large State Government contracts since we have been with Tender Search and are very happy with the results.
